Combinations of these chassis can then be easily paralleled to achieve power levels up to 150 kW. Paralleled units operate like one single supply providing total system current. Available in two control ...

Find rack mount DC power supplies for ATE, EV, and industrial test systems. Scalable, programmable, and ready for automation with remote interfaces.

Lab-Power's LAB DCHC range of programmable power supplies. Full range up to 150kW in a 19" rack. 0-1500V, 0-6000A.

With the use of a Delta rPDU, energy flows steadily to every device inside a rack cabinet. Protection, optimized power distribution, and intelligent management begin with Delta rPDUs for your data center.

The MT Series delivers 150 to 250 kW of programmable DC power per floor-standing cabinet, using high-frequency IGBT current-fed power processing and integrated AC input breakers for robust, high ...

TDK-Lambda is a global supplier of rack mount and hot swap AC-DC power supplies in a broad range of power levels to fit many applications.

SMART SOLUTIONS REFERENCE SUMMARY Solutions Design 150kW 11 Racks with Containment ... Performance Highlights SmartAisle™ technologies result in a superior PUE performance and ...

These power supplies are designed for a broad range of demanding applications, including automotive and EV component testing, semiconductor manufacturing, chemical processing, and ...

Ranging from 30W to 150kW, Sorensen DC power supply products are used in R& D, test and measurement, process control, power bus simulation, DC power testing, and power conditioning ...

150kW Upgraded Version of Communication Power Supply Rack

A high-performance, 3-phase, modular, scalable, power protection solution with industry-leading efficiency, capacity, and performance for medium to large data centers and mission critical ...
