Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

Together, these enclosures deliver 15 kW continuous (20 kW peak), operating silently and reliably even in harsh climates. Designed for telecom, data edge, industrial, and government applications, the ...

Global Power Supply provides secure, industry-compliant cabinet systems for data centers, hospitals, and other critical facilities that depend on uninterrupted power.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Highly efficient, easy-to-deploy 15 kW, 208 V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to critical ...

When you want power protection for a data center, production line, or any other type of critical process, ABB's UPS Energy Storage Solutions provides the peace of mind and the performance you need.

Alpine Power Systems engineers and builds customized battery cabinets and enclosures for critical power applications, for utility, telecom, CATV, data center and other applications.

"With our Vertiv EnergyCore battery cabinets, we are delivering exactly what our customers and our industry need - compact, high-density energy storage capable of operating safely ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

15kW Data Center Battery Cabinet for Port Use

The 100A chassis supports backward compatibility with your existing Symmetra LX wiring, supporting up to 15kW of power protection. The most sustainable modular UPS of its kind, featuring best-in-class ...
