Space-saving: using door-mounted embedded integrated air conditioners can save space in the cabinet by not occupying any space, improving the available space, enhancing the top structural integrity, ...

Established in 2008 and located in Hefei, Anhui Province, China, our company boasts a high-quality R& D and management team, along with advanced production and testing equipment.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Our 200KWh outdoor cabinet energy storage system works with PowerNet outdoor control inverter cabinets for modular expansion. This means you can meet the needs of large-scale applications ...

The outdoor cabinet-type photovoltaic storage system, boasting a power rating of 100kW/200kWh, seamlessly amalgamates energy storage batteries, PCS, power distribution, ...

Our 200KWh outdoor cabinet energy storage system features a battery pack system enclosure with triple fire protection. With independent relay protection and battery-level thermal monitoring, you can ...

Safe & Reliable (EnerCube100kW/215kWh Outdoor Cabinet Photovoltaic Power Generation System)
Standardized cabinets for zoned security and isolation of energy storage systems.

Compact and durable outdoor energy storage system with 200kWh LiFePO4 battery and 100kW hybrid inverter. Ideal for PV + battery applications, microgrids, and C& I backup.

distribution components and more. all housed within a robust outdoor energy storage cabinet. Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield ...

200kWh Microgrid Outdoor Cabinet for Field Research

Photovoltaic energy storage cabinets are designed specifically to store energy generated from solar panels, integrating seamlessly with photovoltaic systems. Energy storage systems must adhere to ...
