In this video, I tear down and review the Amped Outdoors 12ah. At the end of this video I compare this battery to the Dakota Lithium 10ah.

This page offers a wealth of educational content that will guide you in choosing the perfect lithium battery, maintaining your products, and optimizing your purchase.

Couple months ago I bought an Amped Outdoors lithium battery for my Garmin ice bundle. When I got it I read the instructions and charged it full and then haven't touched it since. The ice ...

The Amped Outdoors 12Ah battery is the highest capacity 12V battery on the market today, made to replace your existing 7-9Ah SLA with the same form factor and size, just half the weight and almost ...

One of my three-year-old lithium sixty-amp batteries would not stay charged. I called Amp and explained the situation and after a short discussion they had a replacement battery along with a ...

The incorporation of premium materials and advanced technology gives it an edge in durability and performance, enabling it to withstand challenging outdoor conditions. The Amped Outdoors 12AH ...

Captain Kirk puts the 12V 12Ah lithium battery by Amped Outdoors to the test. Check out the video to see what he likes best about it. ...more

Wrapping up the Amped outdoors vs. Dakota lithium analysis, it's safe to say that Dakota lithium outweighs Amped in terms of performance, lifespan, warranty period, and nominal capacity.

After full charge cycle the failing battery has given me 12 hours (first few outings), 8 hours (second few outings) and now only about 5 hours (Most recently) prior to dying.
