Zip-Chem Cor-Ban 23 is a long lasting water displacing, high penetration corrosion inhibiting compound.

Aircraft supply product COR-BAN 23 Corrosion Inhibiting Compound - 5 Gallon (COR-BAN-23-5GL) (296218) from Zip-Chem available at Jaco Aerospace, offering over 1,000,000 aircraft MRO and GSE ...

Apply Cor-Ban 35 by using conventional airless or air-operated spray equipment or by using aerosol. Apply at 1 - 1.5 mils (25-38 microns) wet thickness. This wet thickness can be measured with Zip ...

Offers long lasting corrosion inhibition properties of BMS 3-29 and BMS 3-35 Use in place of Airbus CML 15-006

Cor-Ban 23 offers the fast dry time and thin film of BMS 3-23 and the long lasting corrosion inhibition properties of BMS 3-29. The product can be applied by conventional airless, air assist, HVLP, and ...

Request a quote for BMS3-23 [Corrosion Inhibitor] today. In stock today. We offer overnight shipping.

A high-performance corrosion inhibiting compound with superior penetration and water displacement. Forms a fast-drying, non-tacky film and provides over 3000 hours of salt spray protection for aircraft ...

Features A long lasting, water displacing, and high penetration corrosion inhibiting compound. Offers fast dry time and thin film of BMS 3-23. Offers long lasting corrosion inhibition properties of BMS 3-29 ...

Cor-Ban 23 is a corrosion inhibiting compound for use on high profile aircraft substrates, upper edge floor beams, wheel wells, pressure deck and center wing sections. Choose from dyed or undyed.

Cor-Ban 23 is a super penetrating water displacing CIC tested to over 3000 hours in salt spray!The product has a low film build up and dries to tack free in one hour.
