In recent years, solar industry have become the world's leading edge. Inter-Tech creates new possibilities for solar C-type bracket with its unique sheet metal processing technology.

We are a physical factory specializing in the production of photovoltaic brackets, earthquake-resistant brackets, cable brackets, and punched C-shaped steel....

In short, there are many technical difficulties in the production process of the assembled section steel bracket, which requires metallurgical engineering and technical personnel to overcome technical ...

Whether you're installing a residential rooftop array or a utility-scale solar farm, understanding these steel structure fundamentals helps avoid costly "Band-Aid solutions" down the line.

One commonly used component in PV mounting systems is the C channel, also known as a C purlin. This structural steel component provides excellent support for PV panels and helps distribute the ...

Energy Steel's high-quality photovoltaic brackets are crafted to meet the demanding standards of the solar industry, offering both strength and versatility for diverse installation needs.

The C-shaped steel system bracket is made of carbon steel and is surface treated with hot-dip galvanizing or magnesium-aluminum-zinc plating, which has excellent anti-corrosion performance ...

If you have engineering project needs, we can customize the solar mounting system solution for you according to your project location, climate environment, cost budget and so on.

Discover the c type steel solar panel bracket: explore material grades, key specifications, performance benefits, and industrial applications in solar energy systems. Learn why it's a top choice for durable, ...
