Data includes solar project phases with capacity of 20 megawatts (MW) or more and wind project phases with a capacity of 10 MW or more. Capacity under construction for China and Europe ...

In our STEO forecast, utility-scale solar is the fastest-growing source of electricity generation in the United States, increasing from 290 BkWh in 2025 to 424 BkWh by 2027. Almost 70 ...

Quick Facts There are more than 8,400 major solar projects currently in the database, representing over 353 GWdc of capacity. There are over 1,400 major energy storage projects currently in the database, ...

Anhui Sixian Caomiao wind farm is a wind farm in pre-construction in Caogou, Si, Suzhou, Anhui, China.

In September last year, CGN and the Lao government signed an agreement to jointly build a comprehensive clean energy complex in the Lao provinces of Oudomxay, Phongsali, and ...

It is designed as a comprehensive renewable energy hub, integrating solar, wind, and biomass power. Using an innovative interconnection model, the project aims to transform Laos" ...

In southern Laos, the provincial government of Attapeu approved a 5-megawatt solar power project on 28 October, to be developed by South Korean firm SBIN Corporation. The project ...

The renewable energy project will finance new solar farms in Guadalcanal and Malaita province, along with a new utility-scale grid-connected energy storage system in Honiara.

The project marks the first large-scale photovoltaic initiative in Laos. With an installed capacity of one million kilowatts, the project is expected to produce an average of 1.7 billion kilowatt ...
