Italy awarded more than 1.1 gigawatts of capacity to 88 projects in its first auction exclusively for solar projects built without equipment manufactured in China, setting an average price ...

Italy awarded in total nearly 9 gigawatts of renewable capacity through this auction and the one completed in early December for ordinary solar and wind plants.

Italy has become the first EU country to exclude Chinese-made solar panels and components from new renewable incentives -- a decision that could reshape Europe's energy and ...

A new update to the FerX decree (which incentivizes renewable energy sources) includes a "resilience contribution" for solar installations without Chinese panels and components. ...

At the end of August this year, the Italian government announced the implementation of the "FerX Transitional Decree," excluding Chinese-made photovoltaic products and components from ...

(Montel) Italy's evolving rules banning Chinese technology from solar auctions are causing confusion and raising concerns over costs, industry participants told Montel on Thursday.

The Italy Solar Generators Market stands at a pivotal juncture, propelled by the accelerated integration of artificial intelligence and digital-first strategies within the energy sector.

Recently, the Italian Ministry of Environment and Energy Security (MASE) introduced "non-price" criteria for photovoltaic projects under the "Fer X Transitorio" program, explicitly requiring ...

It is the first measure, not only in Italy but also in Europe, that excludes photovoltaic panels and their components manufactured or assembled in China from the tenders.

For PV projects exceeding 1 MW in size, the Italian government excluded the use of solar modules, cells, and
