Highly efficient, easy-to-deploy 25 kW, 208 V 3-phase UPS that brings best-in-class power protection to edge, small and medium data centers, as well as to critical infrastructure in commercial and industrial ...

Ideal for large data centers, healthcare facilities, multi-tenant data centers and light industrial environments, this UPS family helps reduce energy costs and lower total cost of ownership while ...

We carry a full line of factory-assembled cabinets designed for data center UPS backup systems with pure lead agm batteries.

Smart modular batteries integrated in the UPS cabinet optimize footprint and ensure critical loads have highly predictable runtimes. Start-up service is included to optimize your system's performance, ...

Designed by data center experts for data center users, the Vertiv(TM) HPL battery cabinet brings you cutting edge lithium-ion battery technology to provide compelling savings on total cost of ownership, ...

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Able to support 1MW of UPS output power with only four battery cabinets and the industry's smallest linear footprint, this NiZn Battery Cabinet offers a lower TCO, lower maintenance ...

Technical specifications document containing technical data, facility planning information, drawings, and options for the product.

Guaranteed continuity and ease of service with fully hot swappable modules, this solution ensures no end-of-life criticality, due to our Forever Young concept.

Data Center Battery Cabinet 25kW Upgrade Version

If your current UPS battery cabinet cannot store the larger batteries needed for the upgrade, a new or retrofitted cabinet/rack will be required. Mitsubishi Electric can help you choose the right battery ...
