Featuring an IP55 rating and C4M anti-corrosion protection, this cabinet provides a secure, weather-resistant home for your energy storage system, whether installed internally or externally.

Delta's Li-battery storage system features high-voltage for enhancing the efficiency of energy management.

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. The cabinet allows natural wind cooling through filtered vents on front door and under lip of rain hood

55kWh air-cooled energy storage cabinet with IP55/IP66 protection, designed for industrial and commercial photovoltaic energy storage applications.

IP55 rated, wide temperature range, supports parallel expansion up to 76.8kWh, built-in fire protection, and remote monitoring. Perfect for hospitals, schools, agriculture, and commercial use.

Stars Series 289kWh Cabinet ESS features high-density 314Ah LFP cells and an all-in-one cabinet design for maximum energy integration. Ideal for C& I, renewables, and EV charging, it delivers >89% efficiency, multi ...

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.

With an IP55-rated enclosure, built-in UPS modules, breaker protection, and dedicated battery space, Citadel ensures continuous operation for telecom, traffic, and CCTV systems under extreme conditions.

Explore AZE's premium NEMA-rated and weatherproof enclosures designed for telecom, industrial electrical, and energy storage applications. Built to withstand harsh environments and extreme conditions, our ...

Distributed Energy User External Energy Storage Cabinet IP55

This energy storage cabinet boasts an advanced All-in-One integrated technology, seamlessly combining PCs, inverters, Battery Management System (BMS), and Energy Management System (EMS) into a single, ...
