The Flow Battery market in Germany faces several challenges that can hinder its growth and implementation. Lithium-ion batteries, which dominate the energy storage market today, ...

Construction is underway on the world's largest flow battery project at a key cross-border grid hub where Germany, France and Switzerland converge.

Construction has started on a Grid Booster battery project in Germany from Fluence and TransnetBW, and the EU has funded one from LEAG.

A double-header of big news from Germany, with construction starting on a "Grid Booster" BESS from TransnetBW and Fluence and the EU putting EUR58 million towards a project that will ...

Leaders from FBE and the private equity-backed FlexBase Group met in Laufenburg, Switzerland to mark the launch. The flow battery system, on a 20,000 m² site, will be able to store ...

Traditional lead-acid batteries would be gasping like marathon runners at altitude, but SimpliPhi's flow batteries? They're the energy equivalent of a Bavarian barmaid - steady, reliable, and built for the ...

To mark the start of the construction phase, leaders from Flow Batteries Europe (FBE) and the FlexBase Group met in Laufenburg, Switzerland to solidify cooperation on addressing energy security at the ...

Germany's latest innovation tender for renewable energy and battery storage systems, held on September 1, 2025, has drawn significant attention, underscoring the nation's accelerating ...
