Can solar panels be installed on a roof in Indonesia?

Solar panels can be installed on almost all roofs. That said, your roof's material and type determine if additional materials for installation (such as racking and mounting systems) are needed -- which will add to your installation cost. In Indonesia, most roofs are pitched and tiled, though a small proportion use metal sheet or flat concrete.

How much do solar panels cost in Indonesia?

Solar panels: The primary component of a solar system is the solar panels, which capture sunlight and convert it into electricity. The cost of solar panels can vary depending on factors such as the brand, quality, and efficiency. In Indonesia, the price of solar panels typically ranges from IDR 7,000,000 to IDR 15,000,000 per kilowatt peak (kWp).
