From power generation to battery storage and electric vehicle charging, FusionSolar simplifies clean energy adoption with seamless compatibility and intelligent control. Benefit from faster installation, ...

By monitoring current energy needs, the status of solar production, stored energy levels, grid or micro-grid health among other inputs, the Maqo BESS works to deliver the optimal energy experience.

GreenControls Technology is a Malaysian-based KNX-certified manufacturer under the Seikou Group of Companies. We design and produce intelligent automation devices that power energy-efficient ...

Stores data securely within Malaysia, monitors weather and plant conditions and manages assets, ensuring full control and privacy. Tracks real-time power usage and generates reports on daily, ...

We are a technology driven Solar PV company, proven ourselves by earning our MD status in 2024 after securing a matching grant in 2023 for the development of an Energy Cost Control Optimization System.

In 2025, solar PV systems are no longer just about panels and inverters, they are about intelligent energy management. With the end of NEM 3.0 and the growing adoption of battery ...

The SUN2000-MAP0 series delivers high efficiency, smart control, and reliable solar power management. With dual MPPT for maximum energy harvest, seamless battery compatibility, and ...

Astern Technologies Sdn Bhd, one of Malaysia's leading rooftop-solar solution providers, has introduced AI BESS 360, an AI-enabled, fully integrated green-energy system designed to help homeowners ...

Summing up all the data obtained we can find the difference between power generated by adaptive solar tracker and biaxial solar tracker. Energy obtained by adaptive solar tracker exceeded by...
