Since 2010, the Open Source Hardware Association, a 501 (c) (3) not for profit charity, has hosted the Open Hardware Summit - a comprehensive conference for the open hardware community and the ...

Collection of tools and software for the development and production of open-source-hardware electronic, IDE, MCU, microcontroller macOS, Linux, Windows AGPL 2.3.7 (2025-12-17) ...

BeagleBoard provides a forum for the owners and developers of open-source software and hardware to exchange ideas, knowledge and experience.

OSHWAs produces helpful resources for the open source hardware community to learn about open source hardware and how to participate in the community. Below are a number of resources that ...

The Distributed I/O Tier (DI/OT) project was launched to develop a common, modular hardware platform for custom electronics at the lowest layer of the CERN control system

Step-by-step instructions to build a smartphone that is open-source, upgradeable, repairable, and Big Tech free.

Whether you are sharing innovative hardware designs or finding design inspiration, this is the best place for you. From beginner to specialist, we can all ...

Guide to Open Source Hardware Platforms

Open Source Hardware Platforms Trends
Getting Started with Open Source Hardware Platforms
Open source hardware platforms are physical products and components that have been designed with the same principles as open-source software. This means that the design files for these items, such as schematics and diagrams, are openly available for anyone to modify or use without charge. These
