A new pumped-storage power station, one of the most powerful in Europe, came on stream in canton Valais in southern Switzerland in July 2022.

Switzerland has been relying on pumped storage to release power on the grid when needed for decades, and laws have been tailored to support this technology. The trend is not ...

Swiss energy trading group Axpo and local integrated energy solutions provider energieUri AG held a ground-breaking ceremony for two battery energy storage system (BESS) ...

Real estate developer ERNE Gruppe and architecture firm FlexBase are hoping to start construction on a data centre project in Switzerland next year, which will include a "non-flammable ...

A new pumped-storage station in one of the highest and remotest parts of Switzerland will help cope with fluctuations in wind and solar-power supply.

Well, they're now making waves in energy storage. The Federal Council just launched Europe's most ambitious battery storage tender - a 900 MW capacity push to solve their Alpine energy puzzle.

As we approach Q2 2025's bid deadline, one thing's clear: Switzerland isn't just buying storage systems--they're procuring grid resilience. The winners won't be those with the cheapest kWh price, ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

While Germany phases out nuclear plants and France bets on next-gen reactors, Switzerland's playing to its strengths. The EUR2 billion investment positions the country as Europe's ...

Power Switzerland Northwestern Energy Storage Project

NorthWestern Energy is a community within many communities. We are close to 1,600 individuals working collectively to build stronger communities in Montana, Nebraska and South Dakota through ...
