Pope Francis has ordered the construction of a solar farm in a northern area of Rome to provide power for Vatican City State.

The Vatican is set to become the world's first carbon-neutral state through a groundbreaking initiative that involves transforming a 1,000-acre field north of Rome into a large solar ...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican City.

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

To model what this could look like, he announced that solar panels would be installed on a Vatican-owned property outside Rome, and the power generated from that could supply all of ...

In a quiet corner of the Roman countryside, an ambitious project is taking shape--one that seeks not only to power the Vatican City entirely through renewable energy, but also to embody the...

The Holy See and the Italian Republic have signed an agreement to build an agrivoltaic plant in the Vatican's Santa Maria di Galeria area just outside of Rome, aiming to supply Vatican City ...

The Vatican is set to become solar powered as Pope Francis has ordered the construction of an agrivoltaic plant at its extraterritorial site at Santa Maria di Galeria on the edge of ...
