Designed and manufactured entirely by Saft, Intensium®; Flex offers the highest levels of safety, reliability and long life, even at high energy throughput.

For more than a decade, Saft has been providing complete storage solutions up to hundreds of MWs that integrate a Saft lithium-ion battery system with power-conversion devices as well as power ...

Saft batteries contribute to a low carbon economy through their ability to store electricity efficiently. In addition to this contribution, we have 5 goals to reduce our impact through our Program Net Zero.

Saft, a subsidiary of TotalEnergies, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium Flex (I-Flex) battery storage container.

The Intensium®; Shift is Saft's modular and ready to install containerized Energy Storage System (ESS), enabling space-optimized utility-scale storage solutions for renewables and power grids.

Lower installation time, once the cabinet arrives in the field with the modules already assembled. Optimized configuration based on each load profile Supporting 2 and 3 wires (neutral / midpoint) ...

Saft, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium®; Flex (I-Flex) battery storage container. It provides a compact building block rated at 3.4, ...

To use an integrated energy storage cabinet, install batteries and related equipment into designated compartments. The cabinet provides a centralized and secure storage solution for energy storage ...

The Intensium®; Max 20 High Energy (LFP) is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, ...

The containerized energy storage system smooths the intermittent generation and ramp rates inherent in

Soft energy storage cabinet

renewable power sources, making it ideal for medium to large-scale, on-grid solar ...
