-----

It is now obligatory to install solar panels on all reconstructed and new buildings and parking lots of more than 1,000 square meters and on all existing buildings with a surface of over ...

Photovoltaic (PV) module certification from SGS - PV module testing and certification to ensure that your modules comply with international standards. PV modules must meet a range of regulations and ...

Standards available for the energy rating of PV modules in different climatic conditions, but degradation rate and operational lifetime need additional scientific and standardisation work (no specific standard ...

Slovenia's solar market slowed in 2024, but the residential segment maintained the largest share as it adjusted to the phase-out of net metering and a new electricity tariff system.

On 28 March 2024, the Government of the Republic of Slovenia issued a Regulation on more detailed spatial planning rules for the siting of photovoltaic installations and solar energy ...

The construction of a larger solar power plant over 1 MW of power is completed with a technical inspection, which determines whether the facility was built in accordance with regulations and plans ...

New EU solar regulations are here. Understand the Ecodesign and Energy Labelling rules and see how manufacturing in Slovenia streamlines compliance and market access.

Solar panels imported or manufactured in the European Union are subject to various regulations, directives and standards. Ensuring compliance requires that the solar panels meet ...

In 2009, the first national regulation describing support schemes for RES in Slovenia was published. Before that, over 70 PV systems had already been connected to the grid in Slovenia. The values of ...
