The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

Whether retrofitting existing infrastructure or building a decentralized energy network, this cabinet empowers businesses to cut costs, enhance sustainability, and ensure uninterrupted power.

AZE offers a comprehensive range of outdoor enclosures for virtually any installation. Designed to NEMA Type 3R, NEMA Type 4 or IP rating requirements, our outdoor cabinets and enclosures ...

They store energy that can be used to keep critical systems running, minimizing downtime and ensuring operations continue smoothly. Improve Energy Reliability: Battery storage systems stabilize energy ...

A compact, high - efficiency microgrid outdoor cabinet for small - scale power management. Equipped with intelligent dehumidification to prevent condensation, it supports 100% unbalanced three - phase ...

From Small Cell to large Base Transceiver Stations (BTS), the SiteFlex series provide AC and DC Power, flexible cable management, and battery & auxiliary equipment space in compact ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

Small outdoor cabinet for microgrids used in tunnels

Fully integrated, outdoor NEMA 3R and NEMA 4X nanogrid and microgrid cabinet systems. Configurable with internal power conversion and power distribution and energy storage or energy ...
