Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

Solarators(TM)--sustainable, off-grid refrigeration powered entirely by the sun. Designed for high-performance, temperature-controlled cold storage, Solarators® operate as efficiently as industrial ...

A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls--providing plug-and-play, rapid-deploy clean electricity for remote sites, events, ...

Reduces CO2 emissions and fossil fuel usage thanks to integrated solar power. Also available with flexible rental options -- a sustainable and cost-effective energy solution. Ensure a stable power ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

The container integrates all necessary components for off-grid or grid-tied solar power generation, including solar panels, inverters, charge controllers, battery storage systems (often ...

SolarMD's BESS units are fully assembled, tested, and pre-commissioned, ensuring quick and seamless integration into your energy system. Provides consistent power output at 0.5C over the entire ...

HighJoule's solar-storage container is not just a product, it is a bridge to energy independence. By combining the generation of solar power and energy storage solutions in one ...

The Mobil-Grid ® is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

This solution allows for personalized container encapsulation sizes according to your unique needs. We utilize

Solar Connected Integrated Container

a safe and efficient lithium iron phosphate battery, integrating ...
