What Are The Various Efficiency Ratings?What Efficiency Rating Applies to Me?Are There Exceptions to The Rules?What's Driving The Efficiency Rules?How Are Efficiency Improvements Achieved?What level you should be looking at depends on where in the world you are. Currently, level VI applies to the US, while Canada still requires level IV. The European Union presently requires level V though new regulations are coming into force this year that need efficiencies greater than level V or level VI. Still, these are yet to be reflected in ...See more on resources.altium .b_imgcap_altitle p strong,.b_imgcap_altitle .b_factrow strong{color:#767676}#b_results
