Although it's rare, some solar installers don't fulfill their contractual obligations for customers. Should this happen to you, there are several things you can do. 1. Organize all your paperwork.

One of the questions we frequently receive from clients is, "What happens if my solar panel installation was never completed, or if parts of the system I was promised were never delivered?" This is a ...

While canceling a solar panel contract after installation can be challenging, it is not impossible. If you find yourself caught in a problematic agreement due to unscrupulous practices, don't feel powerless; help is ...

Canceling a solar panel contract after installation is possible, but it's subject to several conditions and potential penalties. Let's explore these conditions and the implications of such a decision.

What a solar contract is, key terms and core elements to know, how to evaluate your contract, and the importance of understanding your agreement.

In both instances, the solar panels were installed in late 2022 without initial permits, which were only later approved by local authorities. To date, neither system has been activated. In all three instances, ...

Since work has not yet started on the project, will I be liable? The reason I want to cancel is that I've done more research on solar panel pricing since signing the contract and discovered that the price for my system is ...

What they usually mean is a lease/PPA arrangement - you pay nothing upfront, but you sign a contract to buy power or rent the system for decades. It's not a charitable government program giving you ...

Ending a long-term solar agreement requires a clear understanding of your options. This guide explains your rights and potential ways to resolve your contract.

The photovoltaic panels were installed without signing the contract

My husband got talked in to signing a solar lease agreement. I was there. I know the things the salesman said and how he answered our questions. But he only had Michael sign the contract.
