A working meeting took place in Guangzhou at the headquarters of China Southern Power Grid International, where the work carried out within the framework of cooperation between ...

An ambitious project for the construction of the first storage hydropower plants in Central Asia will be implemented in Uzbekistan. This event marks an important step towards the energy ...

Uzbekistan and China Southern Power Grid (CSGI) are joining forces to develop two significant pumped storage power plants (PSPPs) in Uzbekistan. Construction on the Yukori Pskem ...

Uzbekhydroenergo and China Southern Power Grid have come to an agreement on the construction of the Verkhne-Pskemskaya pumped storage power plant (PSPP) with a capacity of 600 ...

This project is expected to provide 2,190GWh of firm capacity annually, bolstering Uzbekistan's electricity sector with voltage regulation, frequency response, and grid stabilization.

Equipped with Sungrow's advanced liquid-cooled ESS PowerTitan 2.0, this facility is Uzbekistan's first energy storage project and the largest of its kind in Central Asia. The project ...

This project is designed to solve the problem of growing electricity consumption and ensure stable energy supply to the country. A delegation from Uzbekhydroenergo recently returned from China, ...

Uzbekistan's energy transition is accelerating, driven by a bold vision to integrate renewable energy and modernize its aging grid.

Uzbekistan is in line for its first grid-scale battery energy storage project as it seeks to stabilize and strengthen its existing electricity grids and ramp up the uptake of renewable energy.
