-----  
How do I update my inverter firmware?

The drive should typically be FAT32 formatted and meet any size requirements specified by the manufacturer (e.g., 4 to 8 GB recommended). Download the correct firmware file for your inverter model and transfer it to the prepared USB flash drive or load it into the update program on your PC.

Who are Solis solar inverters?

Solis is one of the world's largest and most experienced manufacturers of solar inverters supplying products globally for multinational utility companies, commercial & industrial rooftop projects, and residential solar systems.

How do I update firmware on my Growatt inverter?

Growatt Inverters: Firmware updates are handled via USB flash drive. Download the latest firmware from the Growatt website, copy it to a USB drive, power off the inverter completely, insert the drive, and follow on-screen prompts to update. Monitor progress and restart after completion.

How do I update a voltronic/axpert inverter?

Voltronic/Axpert Inverters: Require a serial to Ethernet adapter cable to connect the inverter to a PC for firmware reflashing. The update fixes bugs and restores functionality. The update software is usually provided by the manufacturer after contacting them with your model details.
