Voltic is building electric cargo ships that are zero-emission and 3x more profitable than existing ships. They designed a solar and battery tech stack that can completely power a container ship at standard ...

The inland shipping sector has reached a significant milestone with the launch of the Blue Marlin, the world's first cargo vessel capable of using solar power directly for propulsion.

Dutch marine solar developer Wattlab has supplied a solar energy system for HGK Shipping's inland cargo ship, The Blue Marlin, marking a milestone in maritime sustainability.

While the Helios used its 312 solar panels to power only low-voltage systems, the Blue Marlin raises the bar by integrating solar energy directly into its propulsion system. The Blue Marlin ...
